

Key Takeaways: STOICISM & UNCERTAINTY

Guest panellist, Guy Hume, an Investment Banker and Founding Member of the Aurelius Foundation, will join Justin Stead to discuss uncertainty in both life and business and the Stoic themes they have utilised in order to navigate through this uncertain time.

Our Key Takeaway

1. Stoic philosophy should not stop when someone enters into the business arena or the Board room
2. Predicting/Forecasting/Planning through Stoic awareness is crucial
3. Business Leaders and Managers would be best served to keep a Stoic “review lens” close by when making their decisions to withstand ethical scrutiny
4. Business is not “separate from nature” so ESG strategies are crucial for the greater good
